

We invite you to join the **Africa Health Knowledge Management Portal** at <https://khub.africacdc.org/>

Safeguarding Africa's Health

khub.africacdc.org

- Repository of guidelines, policies, scientific papers and data tools
- AI-powered synthesis and advanced search capabilities
- Communities of practice for real-time collaboration
- Automated dissemination of knowledge products
- Forums for timely discussions
- Selected online courses
- Data and statistics sharing
- Africa CDC flagship initiatives

**STRENGTHENING EVIDENCE-BASED
DECISION-MAKING AND KNOWLEDGE
SHARING IN AFRICA**

 **africacdc**

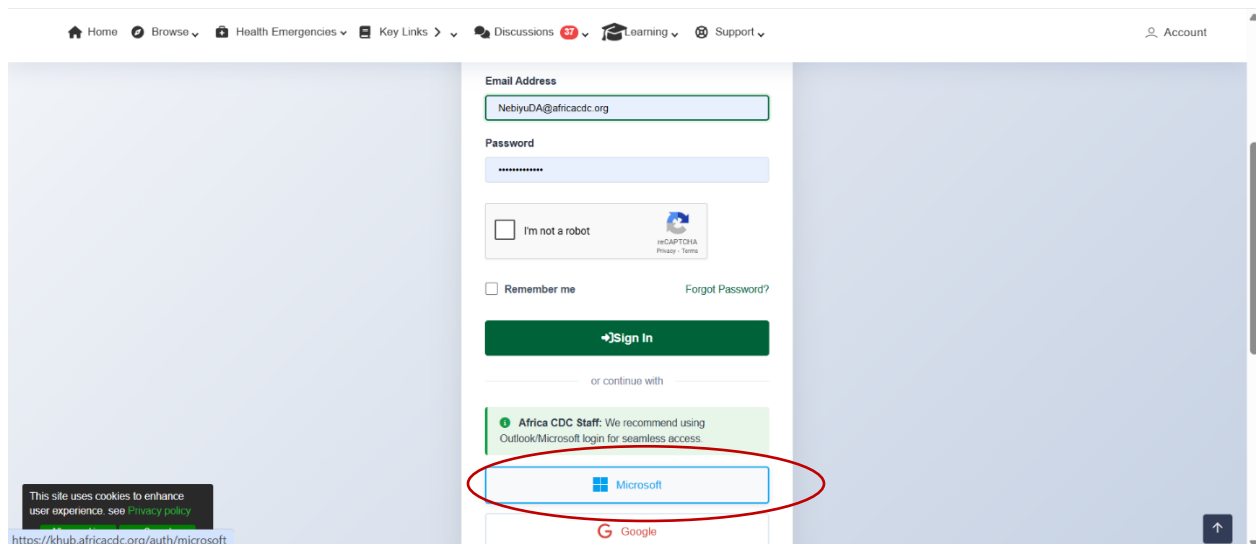

Steps to access: <https://khub.africacdc.org/>

1. To log in, click on 'account' located in the right upper corner, as shown below

2. Use Microsoft log-in using your Africa CDC email address as shown below. Others outside of Africa CDC can use their own email address to access the portal.

3. Join Communities of practice to access knowledge products, share experiences, and lessons learned as shown below

The screenshot displays the Africa Health Knowledge Management Portal. The top navigation bar includes links for Home, Browse, Health Emergencies, Key Links, Discussions (highlighted with a red box), Learning, Support, and Create. A dropdown menu for 'Discussions' shows 'Forums' and 'Communities' (highlighted with a red box). Below the navigation bar is a search section with a 'Type Keywords' input field, a 'Search' button, and an 'AI Search' button. The main content area is titled 'Choose a Health Theme to Explore' and features a grid of 12 theme cards: Health Policy and Governance, Emergency Preparedness, Community Engagement, Data Analytics, Workforce Development, Digital Health, Health Risk Environment, Health Systems, Response, Detection, Prevention, and Global Health Security. Below the themes is a filter section with tabs for Coverage, Organisation, and Department, and a 'Filter' button. The bottom section displays three community cards: 'Vaccination and Immunization', 'Disease Surveillance and Response' (highlighted with a red box), and 'One Health and Zoonotic Disease Prevention'. Each card shows the number of members, forums, and resources, and a 'Visit Community' button. The 'Disease Surveillance and Response' card also has a 'Join Community' button highlighted with a red box.

4. To publish resources (articles, guidelines, policy briefs, strategies, talking points, reports, press releases, presentations...etc.), follow the steps and submit the resources to the portal using the form. It is very friendly and straightforward.
